23 February 1966

MEMORANDUM FOR RECORD

ATTENTION: Mr. [REDACTED]

25X1A9a

For your information:

I began on 7 February 66 to review my records, and other sources, concerning two operations in the period 1950-54 when I was in OPC. My intention is to write chronological accounts of their development, providing documentation as available. One of these concerns a contest among sculptors for a design on the theme of "The Unknown Political Prisoner" --- a theme of political significance at the time. The second topic is the so-called "Stalin-Eremin Letter" and the efforts that were made to exploit it. The documentation on both these subjects is largely at hand and I expect to complete the drafts in March 66. They will be passed to [REDACTED], Agency Historian, as completed.

25X1A9a

I have other topics on the back burners and will pass notes to you concerning them as they move to the front burner.
